## Shared Service Alliances as Change Agents

- **Systems change acceleration.** Actively engaged in policy and regulatory change, bringing provider voice and insights into the process.
- **Increased access.** Serves as a conduit for direct access to provider practice.
- **Stronger engagement.** Trusted relationship with ECE programs

## Shared Service Alliances as Change Agents

- **Stronger linkages.** Links licensure, child care tuition subsidy, and food programs directly to providers to improve oversight and assistance and help identify and document systemic barriers as well as test solutions.
- **Greater program capacities.** Access to real-time data to share trends and results of solutions.
- **More time and dollars in the classroom.** The shared services platform ensures that more time and public dollars are spent on serving kids.
